PROFESSIONAL WORK EXPERIENCE

Web Developer & Photographer, Volunteer – 3minutes.wtf

Jun 2024 - Aug 2024

<https://3minutes.wtf>

- **Developed** an interactive **awareness platform on animal cruelty**, encouraging user engagement through surveys, resource prompts, and personalised action steps.
- Implemented dynamic **UI elements**, including multi-choice prompts ("How did this inspire you?") and call-to-action workflows guiding users towards vegan challenges, donations, volunteering, and newsletters.
- **Integrated educational resources** such as documentaries, eTalks, apps, and mentorship communities, offering visitors a structured pathway from awareness to action.
- **Captured and curated photography of participants'** emotional responses to highlight the human impact of the campaign, ensuring ethical storytelling and avoiding graphic animal content.

Applied front-end development skills to deliver a responsive, user-friendly design with intuitive navigation, boosting user retention and interaction.

PROJECTS

Floranica | Website | Github (ASP.NET, SQL Server)

(Request to show)

Database-driven web app for managing flower inventory and suppliers with secure admin features

- Built a **user authentication system** with SQL-backed login and activity tracking
- Developed **inventory management tools** with record filtering, sorting, and updating
- Implemented **supplier management** using a second relational database table
- Applied **ASP.NET (C#) and SQL Server** for dynamic data handling and CRUD operations

TECHNICAL SKILLS

Frontend | CSS, HTML, CSS, JavaScript

Backend | SQL Server

Developer Tools | GitHub, Visual Studios, PowerBI

EXTRACURRICULARS & SKILLS
